Alexandra Feusi – DJ

Location: Vienna / Zurich / Kyoto
Genres: Techno | Indie Dance | Nu Disco | House

About

Alexandra Feusi is a Swiss-Polish artist based in Vienna and Zurich. She has graduated in abstract painting from the Academy of Fine Arts Vienna.

Musically, she moves between techno, disco, electronica and indie dance, with a pronounced influence from Japanese electronic music, psychedelic sound and French electronic aesthetics. Having lived in Japan and returning regularly, these experiences are an integral part of her musical language and sensibility.

For her, music functions as a counterpoint to the introspective process of painting. While her studio practice is solitary and focused, DJing opens an extroverted space of direct exchange with the audience — physical, immediate and communal.

Detached from the two-dimensional surface of painting, music allows her to construct and explore abstract spatial environments in real time, working with rhythm, tension and atmosphere.

Both practices inform each other continuously and are understood as equal forms of artistic expression emerging from the same conceptual origin.
